	town lines	

0 0.25 0.25 0.5 Miles

*Useful Cycling Road refers to streets that are practical streets for urban cycling. Although the cyclist will occasionally encounter narrow shoulders, heavy car traffic, hills, potholes and other annoyances, these streets have been determined to be most useful for connecting important destinations.
 **This type of "Useful Cycling Road" refers to streets that are practical streets for urban cycling, but can be described as "gnarly" due to high traffic, speeds, heavy commercial development, etc. For safety, an alternative route should be considered.
 Disclaimer: This map is meant to be used as a loose guide for navigating the public roadways of Greater Providence. Please obey the law and respect other road users. Due to the ever evolving roadway network, some roads may not be as they appear on this map. Be prepared to improvise or stop and ask for directions.
